

QUIRIMBAS ARCHIPELAGO

# 10 NIGHTS/11 DAYS ISLAND HOPPING DIVE CRUISE

## QUIRIMBAS ARCHIPELAGO

The Quirimbas Archipelago is made up of lots of small islands, most are uninhabited with beautiful beaches. There are dozens of sand banks and reefs. You will have the place to yourself... we can vertically guarantee you won't have to share it with other people and will get to dive and snorkel reefs with no one else around to disturb you.

There is no hard and set itinerary, though we do have a general guideline cruise route planned. But we go with the flow based on what our guests feel like doing.

Days will be spent diving, fishing, snorkelling, enjoying water sports, playing on beaches, eating, reading relaxing and taking in the beauty of the Quirimbas Archipelago.
